Removal and Re-installation of Flush-face fireplace Door

**Step 1**
Firmly grasp hand-hold end of tool and place the machined end in the slot under door frame. (as shown)

**Step 2**
Ensure the tool is firmly in the lower end of the slot, (as shown). (Caution: hold the tool securely).

**Step 3**
Pull the tool toward you, releasing the spring tension. (as shown). (Caution: The latch springs back with force, hold the tool securely).

**Step 4**
Remove the tool from the latch slot. (as shown). (Repeat all 4-steps for the remaining latches).
