## An environment that promotes healing.

Provide your health & wellness client with a therapeutic surrounding that delivers seamlessly elegant design and uncompromising safety. With COOL-Pack or Power COOL-Pack you can create a space of healing and restoration without concerns of hot glass temperatures, especially in spaces where children or the elderly may come into contact with the fireplace glass.

With Venting capabilities up to 550ft and multiple air intake location options to provide you with ultimate flexibility. Montigo can turn your vision into reality.
