beauty, creativity, and safety
operating in unison

MONTIGO[®]
the art of **fireplaces**

Washington State University
Pullman, WA / C820

Inspire great thought and conversation.

Inspire students to gather by the fire just as scholars from days past. Add value to an institutional space with an accomplished piece of design and engineering. Venting capabilities well beyond 500ft and multiple air intake location options provide you with flexibility.

With COOL-Pack or Power COOL-Pack you can provide visual warmth and excitement without concerns of hot glass temperatures, especially in spaces where children or the elderly may come into contact with the fireplace glass.
