beauty, creativity, and safety
operating in unison

PCPR820
Platinum fireglass
(Comes with high-low burner)
Our passion for beautiful, bold flames guided the development of the Prodigy. Refined elegance and modern design in a fireplace of unrivaled allure.

**Concealed Burner**

The Prodigy adds tranquility and warmth to your home. The linear burner produces a relaxing ribbon-like flame. Your desired media can completely cover the bed of the firebox, enhancing the ambience even when the fireplace is not in use.

**Frameless Design**

Clean contemporary lines and frameless double glass design deliver breathtaking aesthetics. Finishing materials can be attached directly to the fireplace and brought down to the edge of the glass creating a stunning focal point without interruption.

**Our Guarantee**

Rest assured our uncompromising quality and long-term reliability is backed by our 10-year limited warranty.

---

**Specifications**

- **Body finish:** Matte black
- **Body style:** Single sided, see through, corner, panorama
- **Media options:** Firestones, fireglass, firebeads, driftwood, speckled stones, black glass panels
- **Venting:** Roof, wall, inline power venting
- **Flue location:** Top
- **Intake vent locations:** Top both sides

The glass temperatures on a gas fireplace typically range ±500˚F. Even momentary contact at these extreme temperatures would result in serious burns to the skin.

Montigo's on-site CSA accredited lab, every standard Montigo fireplace is manufactured, tested and certified to meet stringent CSA guidelines, ensuring optimum quality, performance, and safety.

Architects, designers, and homeowners alike, will appreciate the ability to feature fire in just about any location. With our proprietary power venting system and team of expert engineers, a Montigo Prodigy can be installed virtually anywhere.

COOL-Pack Technology
The glass temperatures on a gas fireplace typically range ±500˚F. Even momentary contact at these extreme temperatures would result in serious burns to the skin.

Montigo’s patented COOL-Pack glass technology has been designed to significantly increase safety by maintaining glass temperatures as low as 115˚F (46˚C).

COOL-Pack technology makes it safe to touch the glass, reducing associated liability risks for the property owner.

Unlimited Installation Possibilities
Architects, designers, and homeowners alike, will appreciate the ability to feature fire in just about any location. With our proprietary power venting system and team of expert engineers, a Montigo Prodigy can be installed virtually anywhere.

Indoor-Outdoor
Bridge the ample beauty of the outdoors with the comfort of your indoor space. Any size see-through Prodigy can be transformed into a fully sealed indoor-outdoor unit with the addition of the kit.

Available Dimensions

CSA Certification
With Montigo’s on-site CSA accredited lab, every standard Montigo fireplace is manufactured, tested and certified to meet stringent CSA guidelines, ensuring optimum quality, performance, and safety.
