INNOVATION, LUXURY AND COMFORT AT ITS FINEST

EXEMPLAR

BALANCED DESIGN IN ELEGANT PROPORTIONS

A flame viewing experience unlike any other. From the sleek linear burners of the Exemplar 820, to the robust towering flames of the RP424, our catalog offers endless choices in flames across a variety of burner media. Montigo’s patented COOL-Pack technology is featured in the RP424, creating a cool-to-the-touch glass surface without a safety screen obstructing your view.

Header on edge not required if framing meets clearance to venting

*Dimension is to back wall or back studs*
1976: The Days Before Gas Fireplaces
In 1976, Montigo president and founder, Dan Binzer, started installing zero-clearance wood burning fireplaces for local builders in Vancouver, BC. Over the years, demand grew for a gas alternative, and Dan engineered and manufactured the first ever sandpan logset. The logset was installed in a zero-clearance wood burning fireplaces hell, resulting in one of the first zero-clearance gas fireplaces on the market.

1985: Gas Fireplace Manufacturing Begins
Demand for gas grew rapidly, especially among multi-unit developments so Dan Binzer started a company called Canadian Heating that would offer full service design, engineering and manufacturing for gas fireplaces. Under the Montigo brand, Canadian Heating began manufacturing and selling a wide selection of zero-clearance gas fireplaces throughout Canada and in 1985 development began for the latest and greatest in gas fireplace technology – direct venting.

1994: Manufacturing Excellence is Achieved
Development and advancement of the gas fireplace continued over the years with continual developments to improve the efficiency of the fireplaces and perfected manufacturing processes to deliver an optimum fireplace each and every time – even for completely custom units.

Present: Leading the Way with Modern Fireplace Design
As one of the first to bring a linear designed fireplace to market, Montigo now offers the largest selection of linear fireplaces demanded by designers, architects and homeowners wanting to create a modern and contemporary space and homeowners wanting to create a modern and contemporary space.

Our Guarantee
Montigo® stands by the craftsmanship and durability of our products by providing a 15 year warranty on the burner and firebox in all our residential fireplaces. All made using steel milled in the United States.
